## Projects Undertaken

**Title:** Paytm App

**Description:** #PaytmKaro for the fastest online payments and mobile recharge - pay for online recharge & mobile bills, DTH recharge & utility bills, movies, shopping or to send or accept payments, Scan QR to pay and book flights, bus & IRCTC train tickets. Quick, easy, useful and secure, Paytm is trusted by 22+ crores customers.

**Modules:** Following are the modules in which I was involved as an individual contributor:

- Wallet
- Search

**Market Link:** <https://play.google.com/store/apps/details?id=net.one97.paytm>

**Title:** Call Manager

**Description:** Call Manager is a service to temporarily block any incoming call by using a tone alert based on the user's activity. E.g. when you're driving and not be able to receive any call, you can activate "DRIVING" profile using Call Manager service. As a result, every incoming call will be blocked and the caller will receive a tone alert telling that you're currently driving.

**Market Link:** <https://play.google.com/store/apps/details?id=com.telkomsel.callmanager>

**Title: Idea Games**

**Description:** This application is developed for Idea. It is a platform which allows users to browse and download Android games as well as user can play HTML games without downloading. At the time of downloading, user will be provided 3 months free subscription to access all the games. Thereafter he needs to select from one of the many subscription packages and purchase subscription to access the games. For payment, we support all common modes like - Idea Billing, Paytm Wallet, Credit card, Debit card & Net Banking etc.

**Title: CHL Anmol**

**Description:** Anmol is loyalty program launched by Cipla Health Ltd. for Chemist retailers. Every retailer is provided value target, which retailer will be able to see after app is downloaded. Value achievement will be based on CHL's Unnati-Sales Field Application Bill Value to earn incentive. Retailer will be earning CHL points, CHL points = BillValue/100. Paytm cash will be awarded as per slabs after retailer achieves above mentioned conditions. App link as below –

<https://play.google.com/store/apps/details?id=net.one97.cipla>

**Title: Monthly Journey Plan**

**Description:** This application is developed in Android Technology for Sales Officers of **Dabur India Ltd.** This is the first of its kind of application for FMCG companies in India after PepsiCo. This application is used by all Sales Employees of Dabur across India to put their Daily Attendance, Daily Working Details and TA-DA entries. A special feature is added to this application is **GPS Integration** which sends the location of user to the server as he clicks on **IN & OUT** buttons. A tracker service also works in background which sends the user's location at every hour. Application link is as below-

<http://dabur-pos-wr.dabur.com/AndroidWeb/apk/MJP.apk>

**Title: Order Capture Apps**

**Description:** The Order Capture System is a mobile application by which user can submit his order on daily basis, we have given an option that salesman can see all his stockist and check whether his order is placed or not. The main focus of this application is that users can get all the information of his product as well as he can submit his orders online. We are also capturing user's location. Application link is as below

<http://dabur-pos-wr.dabur.com/AndroidWeb/apk/OrderCaptureApps.apk>

**Title: Mobile Analyzer Report**

**Description:** This application is also developed in Android Technology for Sales Officers of Dabur India Ltd. With the help of this application Sales Officers can get the daily sales report of their subordinates working schedule as well as their location. Use of XML parsing for getting data from SQL database through web services. Application link is as below-
